

Ye variables ko yaad rakhta hai.

Global scope

counter = counterUpdate()

counter() Execution

count = 0
increment() →
reset() →

Closure Memory

count = 0

jb counter.increment() call hoga.

increment()

increment scope

↓ count nhi milta

counter() scope

↓ count = 0

count++

↓
count = 1

phiv

increment()

↓

increment scope

↓ count = 1

count = 2

↓

Closure

↓

count = 2

increment

↓

count++

↓

count = 3

reset

↓

count = 0

↓

count = 0
